Healthcare Solutions Joins VIIAD Health Ticket

Atlanta, November 17, 2009 – Healthcare Solutions, the parent company of Procura Management and Cypress Care, announced today that it has contracted with VIIAD Systems to enable the company to offer VIIAD’s Health Ticket as a service offering to its customers.

The VIIAD Health Ticket is an on demand, web-based claims communication platform that provides medical information relevant in a workers’ compensation claims transaction to the injured worker. The Health Ticket is used to control costs and assist payers in compliance with PPO legislation. In addition to providing PPO network information, the Health Ticket includes information on Healthcare Solutions’ pharmacy and specialty healthcare services.

“The Health Ticket is designed as an easy to use tool to reduce claims cost, enhance cost containment strategies, control utilization and comply with the ever-changing regulatory landscape,” said April Stiles, Chief Operating Officer of VIIAD. “We are excited about the opportunity to work with a high-growth company like Healthcare Solutions.”

VIIAD Health Ticket was designed to benefit all parties, including injured workers, medical providers and payers. The web-based functionality provides injured workers immediate access to important medical information pertaining to their injury and reduces administrative burden on payers and providers.

“As payers work to manage rising medical costs, the VIIAD Health Ticket provides a unique solution for addressing cost pressures,” said Tamara Webb, vice president, PPO network services. “As an added value, the Health Ticket will also reduce provider disputes regarding network practices while increasing provider awareness of network participation.”

###
